Sphinxax IP Surveillance

Sphinxax Info Systems provides surveillance and security solutions to Business Houses, Large Industries, Institutions, SME's, Commercial & SOHO establishments.

We offer a wide range of surveillance solutions, including the latest High Definition IP Surveillance Systems, Access Control, and Intruder Alarm etc. This allows the management to remotely manage and monitor security across the site, by which it helps the organisation to minimise pilferage, protect buildings and assets.

As surveillance service provider, we evaluate and offer a wide range of CCTV solutions based on the client's needs and requirements. We also undertake Annual Maintenance Service and support of existing CCTV infrastructure.
